

Power flushing has just got easier with the launch of Anton's new Flowclean Plus, power flushing and descaling pump. As with all Anton products the unit has been designed to provide simplification of use for the engineer, whilst providing some unique design features to help with van storage, transportation and performance.

Easy to use with faceplate diagram to assist you.
Simple and quick to connect to heating system

Handy carry case with shoulder strap to store hoses, funnel and a selection of fittings

Magnetic filter to remove black iron oxide particles and sludge during the power flushing process
